Voluminant is a business performance improvement firm based in Arlington, Virginia, with a federal government practice focused on helping organizations and agencies develop clear strategies, streamline processes, eliminate redundancies and enhance the capabilities of their workforce through need-based, hands-on training.

Voluminant's pmIMPACT services help Federal program and project managers achieve cost, schedule and technical requirements through integrated consulting, services, and outsourced staffing solutions targeted at enhanced requirements gathering, project control and tracking, and project close-out services including user training and project performance audits. For more information on pmIMPACT services and solutions, please contact a Voluminant representative.
